

Printer Model: CX/FX1200e Digital Label Press and Finishing Combo

Customer: Pese oHG

PRIMERA
TECHNOLOGY EUROPE™

Country of Origin: Germany

We decided to get the CX1200e/FX1200e combination to print and finish our short-runs, line of samples as well as proofs fast and cost-efficient. It's time-saving with low tool costs, because of the inline processing of the printed material by laminating, die-cutting and tailoring. We're offering many materials, such as standard paper, polyester foil or water-based winematerials for any needs.
